

Enjoy a relaxing evening!
Light-up illumination supporting Tokyo Marathon 2012

The Symbol of Tokyo Big Sight, Conference Tower will be illuminated with rainbow colors to coincide with “Tokyo Marathon EXPO 2012” , which is to be held from February 23 (Thu) to 25 (Sat).

The design of this light-up illumination is based on a rainbow due to the so-called “Rainbow Town” that exists in the urban sub-center around the Tokyo waterfront, as well as the fact that a rainbow is featured in the logo of Tokyo Big Sight. The lighting for this illumination uses a total of 23 environmentally-friendly LED floodlight projectors.

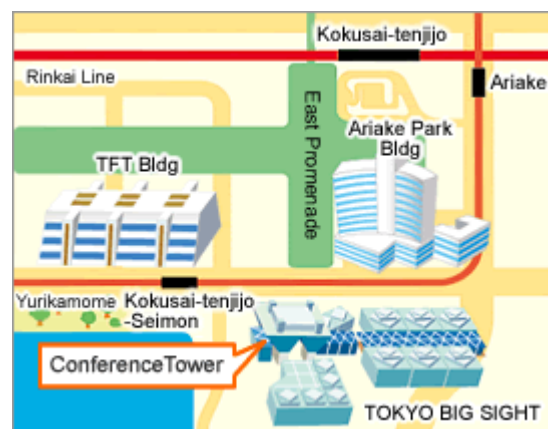

Again this year, ahead of the Tokyo Marathon 2012, a “Tokyo Marathon Expo 2012” will be held at Tokyo Big Sight, which is the finishing point for the Tokyo Marathon. When visiting, we hope that you will also enjoy the glamor of an evening in the Tokyo waterfront city!

“Rainbow light-up illumination” of Symbol Tower
